

Name: **Data investigation****AC 1.1 / 1.2 / 2.1**

1. Choose a question to ask students in your class.
(Example: favourite colour, animal, football team)
2. Identify 4 categories for collection of data.
(Example: Favourite animal = tiger, dog, cat, horse)
3. Collect data (minimum 10 students) and present in a table.
4. Draw a bar chart showing your findings.
Remember to label your bar chart and give it a suitable title.
5. Write two sentences on what your bar chart shows.
