

## Worksheet 3 – Organic Society - True or false

Place a ✓ in the correct column to note whether the facts regarding *organic society* are true or false.

	True	False
Organicism is the belief that society is like a living entity that is greater than the sum of its parts.		
Organisms are merely a collection of individual parts that can be arranged or rearranged at will.		
In an organism the whole is more than a collection of its individual parts.		
The organism is sustained by a fragile set of relationships between and amongst its parts, which, once damaged, can result in the organism's death.		
The organic society is fashioned by artificial design.		
The individual is distinct from society.		
Social groups provide the individual with security and meaning.		
Freedom is understood as the individual being left alone.		
Freedom is understood as a willingness to accept social obligations as recognition of their value.		
It is the bonds of duty and obligation that bind society together.
